## *Message*

The Ministry of Culture, Government of India is organising a three-day *International Museum Expo 2023* to be held from 18-20 May, 2023 at Pragati Maidan, New Delhi on the occasion of International Museum Day on 18<sup>th</sup> May 2023.

The objective of the International Museum Day is to raise awareness about the fact that museums are an important means of cultural exchange, enrichment of cultures and development of mutual understanding, cooperation and peace among people. India is a treasure trove of material artefacts depicting rich civilizational and cultural heritage that is more than 5000 years old.

On this special occasion, I am pleased to know that the Central Reference Library, a subordinate office of the Ministry of Culture, Government of India, Kolkata in collaboration with the Central Secretariat Library, New Delhi is publishing a “**Pictorial Bibliography on Museums**”. As the name suggests, each entry in this ‘*Pictorial Bibliography on Museums*’ is accompanied by a digital image of the cover or the title page to add an extra dimension to the otherwise drab looking bibliography. It is an excellent resource for scholars, researchers, students, and lay readers.

My heartiest congratulations to both the Libraries for bringing out a special bibliography on Museums and becoming a part of this grand celebration of the *International Museum Expo 2023*

## *Message*

I am happy to know that the Central Reference Library, subordinate office of the Ministry of Culture, Kolkata in collaboration with the Central Secretariat Library, New Delhi is publishing a “Pictorial Bibliography on Museums” on the basis of selective books written by scholars, academicians and researchers on and about Museums and Museum Studies.

Museums are not just an exhibition space for collections but also a resource rich, citizenry focused cultural space for intellectual and artistic exchange and engagement of a diverse set of stakeholders and museum goers. Documentation remains an essential medium of dissemination of our vast and rich cultural heritage, which the Museums try to do through showcasing of its material evidences, and this Bibliography attempts to do likewise through a compilation of ideas on and about Museums.

I am very confident that this decade wise compilation of the Pictorial Bibliography on Museums will enable Museums to emerge as centres of research and residencies and also focus attention on the need for Museum related publications to carry on this conversation around various facets of the Museums essential for their holistic development in the true spirit to serve as a place of infotainment and education.

My heartiest congratulations to the Editorial team of Central Reference Library and the research team of the Central Secretariat Library for bringing out this bibliography on the momentous occasion of the International Museum Expo 2023 and marking its contribution in the making of a creative economy.

## *Foreword*

As part of the Second Phase of Azadi Ka Amrit Mahotsav, and in celebration of the International Day of Museums on 18<sup>th</sup> May, 2023, the Museum Division of the Ministry of Culture, Government of India endeavours to institutionalize an annual engagement with Museums and their entire gamut of Museum Professionals, not just in India but across the globe through a three-day *International Museum Expo 2023* which is being held from the 18th-20th May, 2023 at Hall No 2 & 3, ITPO Pragati Maidan, New Delhi.

This initiative aims to showcase all kinds of National, Regional, State, down to Village and Community Museums through Panel Discussions, and their star objects through physical, digital and hybrid Exhibitions, museum vendors, latest in terms of technologies/equipment through the Techno Mela and also seeks to draw attention to collection care and management through the walk in in-situ Conservation Lab where the experts will orient students/participants to conservation techniques across different materials.

To educate and sensitize the audiences to the concept of Museology, Conservation, and cultural Heritage which involves a deep dive into research to enable learning experience for those who wish to develop new museums or upgrade existing ones, a need was also felt to showcase the efforts of academicians, researchers and authors who have written on and about Museums and allied subjects to allow Museum stakeholders to develop a reference library for transforming Museum spaces into Residencies for artists, researchers and to grow publications as a serious royalty based business model for ensuring sustainability of Museums.

Museum is an institution opened to the public and high time we allow it to grow itself into a service provider to contribute to the growing creative economy for the development of society through research, dissemination or display of the rich cultural heritage, for the purpose of education, study and infotainment.

The Central Reference Library, Kolkata, in collaboration with the Central Secretariat Library under the Ministry of Culture, Government of India has brought out the '**Pictorial Bibliography on Museums**' to add value to, and participate in, this holistic conversation on Museums.

Just like the Museums collect material evidence and oral anecdotes in order to help us preserve and promote our cultural heritage, this '**Pictorial Bibliography on Museums**' intends to collect ideas pertaining to museums, through the medium of books, for posterity. For anyone interested in the history of museums, museum studies, techniques on preservation or conservation, star objects and exhibits of museums, digital management, museum manuals, management of artefact, setting up museums, architecture of the museums, this Bibliography will serve as an important reference tool.

We sincerely hope that those tirelessly running our museums in order to transform them into Cultural Centres, will find this '**Pictorial Bibliography on Museums**' to be an important tool. Besides, the Bibliography will also draw attention to how libraries itself are transforming from collectors and issuers of books to collaborators and customized service providers to Museums keeping a specialized set of Museum goers in mind.

The International Council on Museums (ICOM) theme for this year is '*Museums, Sustainability and Well Being*' and we are happy that the '**Pictorial Bibliography on Museums**' is in keeping with this theme and complements the other initiatives at the International Museum Expo 2023 to make the experience of the Expo a comprehensive one.
